

Two Foundation Photo/Video Consent Form

The Two Foundation is proactive in using social media and broadcasting what we do online via our website. We are active on Facebook, Instagram, Twitter, other popular forms of media, and have even been featured on numerous news stations. This is how we can broadcast what we do, share the successes we have, and continue to grow the Two Foundation to serve those who need it most.

This form represents a consent to the Two Foundation, and it's representatives, to take photographs and/or videos of me during my time at the Two. I also authorize the Two Foundation permission to do the same while out in the community, during fundraisers, community events, and other group activities while under the services of the Two. This includes permission to copyright, use, and publish the same in print and/or electronically.

The Two Foundation may use these photographs with or without my name and for any lawful purpose, including but not restricted to, publicity, illustration, advertising, or web content.

I have read the above, and grant the Two Foundation permission to do the aforementioned.
